

## What is this about?

Throughout this educational series, we will cover a range of topics. These topics will include:

### Get and Stay Connected.

Do you know what your community offers? Do you know what programs are offered at the library, local civic center, etc? Do you know what online informational sites are safe to use? *Staying connected keeps you protected.*

### Getting Around.

Do you know about a senior driving course? Do you need to buy a car? What about buying a used car? Have you heard of Coordinated Transportation? Is Uber safe – what to know and avoid. *Be travel savvy.*

### Lifelong Planning.

What should you plan for? Do you have a will? Do you have a POA? Should you consider transferring your house to someone? What do you need to know before making those decisions? What pitfalls to avoid? *Proactive planning.*

### Life Transitions.

Change is inevitable. What plan do you have for anticipated life events? Who can you trust to help with unexpected life events? *Navigating life's changes.*

### Aging in Place.

We know most people want to stay home as long as possible. Do you know what resources are available that can help you do just that? Do you know what questions you should ask? *Aging safely where you call home.*

### Avoiding Scams.

Do you know how much money is lost annually to scammers? Billions. Do you know what the common signs of a phone or an online scam are? *Keep control of what's yours.*
